 Geographic Information Systems
 This is not an engineering map.

SOURCE STATEMENT: The Local Planning Assistance Office derived this land-use data by associating digital parcel boundaries from the Tennessee Base Mapping Program (BMP) with parcel attribute data maintained in the Comptroller of the Treasury's Computer Aided Assessment System (CAAS) database. Each parcel was assigned to one of the land use classes based on attributes contained in these two data sources or from examination and assignment by planning staff. Data Sources: Base Mapping Program dataset, February 2009; Computer Aided Assessment System database, February 2009.
